SLATE'S

SEED MARKET NEWS

VOL. III

SLATE SEED COMPANY, INC., SOUTH BOSTON, VIRGINIA

NO. 2

ORDER EARLY

Aside from many evident shotages in seed crops this year, we are faced with a problem in transportation, therefore an early order will reach us before limited stocks are sold out and give us time to get the seed to you before it is too late to plant.

The farmers of this country must prepare as never before for a crop. The world is looking to us for food and you and your efforts will provide the foundation for our fighting machine. It then becomes both good business and good patriotism to plant liberally and cultivate diligently.

Plan your garden carefully this year. See to it that liberal plantings are made of all vegetables that can be canned or stored for winter use. Food is going to be valuable by another winter and our home gardens can do much towards relieving a food shortage.

We pledge you our best efforts to supply your needs and to get the goods to you on time, so far as possible. But we do ask your co-operation by avoiding a last minute rush.

VICTORY GARDEN FERTILIZERS

We have made arrangements with two of the large fertilizer manufacturers to supply us with Victory Garden Fertilizer packed in 100 Lb. bags. This is an item that may be extremely some before the season opens and we want to advise our trade that we will be able to supply their needs for the home garden. This is high analysis fertilizer designed for use on all vecetables and we will be glad to name a definite price upon request. Our opinion is that it will sell for from \$3.50 to \$4.00 per 100 Lbs. f. o. b, here.

CORN, The South's Most Important Food Crop

Much of our land will not make a profitable yield of wheat or other small grain, so the South depends largely upon its corn crop for feed. With great stress now on meat production, we must all grow more corn and the best way to do this is through better varieties and better cultivation. Our corn yields may be materially increased through the proper selection of varieties alone. We are offering in this list practically all of the leading varieties for the South and Central states. These are well bred strains of known value. Then we offer one of the best strains of Hybrid corns to be had in the World.

brid corns to be had in the World. Hybrid corn is fast replacing the open pollinated sorts all over the country. The South is just beginning to use Hybrids and finding it profitable. During the past summer, when we suffered from extremely dry weather, we noticed a material difference in the standing ability of Hybrid corn over the other kinds. We are convinced that it will pay every southern farmer to conduct his own experiments with Hybrid corn and see the difference.

SAVE OUR CATALOG

Labor and supplies of all kinds are becoming increasingly hard to get and it is possible that another year will see only a price list issued by many of the leading seed houses. We do not know that this will be the case with us, but we think it advisable for all of our customers to take care of this year's book. It may be the last complete catalog you will get from us for the duration. Our catalog has been printed with this in mind. The paper stock is heavier with a good cover. It will stand handling and the information contained in it may be very valuable before the war is over,

WRITE FOR A NEW LIST

It is our intention to publish this bulletin every month during the spring season, oftener if market changes make it necessary. So whenever you want revised prices on any items listed here, just droo us a postal card requesting a new copy of this list. It is free and we are glad to mail upon request. If you watch market trends, it may save you many dollars on your seed purchases by enabling you to buy items ahead of market advances.

SLATE'S FIELD SEED

Price List

S. S. Demotion of Landinare

JANUARY 18, 1944

Prices Change

TERMS.-Subject to being unsold, market changes, and our usual non-warranty, we offer the following seeds. Every lot of field seeds of ten pounds or more is tagged in accordance with the Agricultural Seed Laws of Virginia and North Carolina. Samples with Purity and Germination tests will be sent upon request. Prices on Field Seeds fluctuate. This list is issued every week during the season and we shall be glad to send a revised copy to anyone upon request.
